SUMMARY

Junior Software Developer, eager to contribute my skills and passion to a dynamic team. With a firm dedication to excellence and a drive for continuous improvement, I seek a challenging position where I can leverage my professional and technical acumen. I am committed to maintaining persistence, focus, and a collaborative spirit, working diligently toward achieving the company's objectives. As a Junior Developer, I am poised to harness my potential for optimal efficiency and grow alongside the organization, contributing as a valuable team player while honing my expertise in software development.

TECHNICAL SKILLS

- Languages: HTML, CSS, Javascript, Dart and Python.
- Frameworks: Reactjs, NextJs, Flutter, Bootstrap, Tailwind, and Flask/Django (RESTful APIs).
- Databases: SQLite, PostgreSQL, and MySQL.
- Version Control: Git and GitHub.

SOFT SKILLS

- Effective communication
- Problem-solving
- Financial planning
- Team player and collaboration
- Leadership

Projects

EstateEaseApp(Flutter) - https://github.com/gilbert-ku/EstateEaseApp
A real estate management platform with secure user authentication, property browsing, and listing capabilities. Tenants can manage leases, make online payments, and access invoices through a dedicated dashboard. Still under development.

Blue Eye Insurance Agency(NextJs) - https://blue-eye-insurance-agency.vercel.app/
Blue Eye Insurance Agency is a web app for financial advisors to generate personalized leads, schedule meetings, and share financial content with clients through a blog section.

Stigma Support Group(ReactJs) - https://stigmasupport.onrender.com/
Together, we can end the stigma! We envision a world where no one faces discrimination for having HIV/AIDS. We aim to foster compassion and understanding by sharing stories and raising voices. Join us in creating a stigma-free world.

EstateEase App (Web App) - https://estateeaseapp.onrender.com/
A real estate management platform with secure user authentication, property browsing, and listing capabilities. Tenants can manage leases, make online payments, and access invoices through a dedicated dashboard.

EXPERIENCE

Junior Developer | **Freelancer**
January 2024 - Present | Nairobi

- Building, Testing, Deploying, and maintaining responsive websites for individual and small SMEs.

Financial Advisor | **Liberty Life Assurance Kenya, Nairobi**

February 2021 - April 2023

- Client Prospecting and relationship building.
- Explain complex financial details in easy-to-understand terms to clients.
- Recommended tailored investment, trust, and life insurance plans to address needs.
- Adherence to Regulatory Compliance (Insurance Regulatory Authority).
- Ethical and Objective Financial Planning.

Key Accomplishments:
- In my previous role, I was able to increase agency sales through digital marketing which led to full sponsorship for a short course in digital marketing which was conducted by the Association of Kenya Insurance (AKI) (may 2023 – Digital super selling)
- I mentored two financial advisors in our agency who are performing well in their roles.
- Thank you! I got feedback from a client whom I help plan and secure their finances.

EDUCATION

Power Learn Projects | Software Engineering June. 2024
